The NEBOSH Health and Safety Management for Construction (UK) program will coach you to strive to eliminate any cause of accidents and realize an injury-free construction workplace. You will learn the legal requirements, implement health and safety protocols and influence a safety-aware culture.

Nutzen

The NEBOSH Certificate in Construction Health and Safety endows you with the skills and knowledge required to:

- Identify, evaluate and assess risks
- Understand legal requirements for managing health and safety
- Learn the duties under the Construction (Design and Management) Regulations 2015
- Advocate effective health and safety improvements

Zielgruppe

The National Examination Board in Occupational Safety and Health (NEBOSH) Construction Certificate is a foundation qualification. It is for professionals responsible for health and safety in the construction industry, such as:

- Health and safety officers

® TÜV, TUEV und TUV sind eingetragene Marken. Eine Nutzung und Verwendung bedarf der vorherigen Zustimmung.

- Managers
- Supervisors
- Principal designers
- Principal contractors

Anforderungen

There are no mandatory entry requirements. However, having awareness of general health and safety issues is essential. It is recommended you complete the NEBOSH General Certificate program before taking this course and have a suitable standard of English language (score of 6.0 or higher in IELTS tests).

Abschluss

Zertifikat

Certificate

Inhalte

The NEBOSH Construction Certificate has a single unit:

- The foundations of construction health and safety management
- Improving health and safety culture and assessing risk
- Managing change and procedures
- Excavation & Demolition
- Construction hazards

There is one exam, which is an online open book assessment.

Hinweise

Astutis supplies the UK version only.
