Person with electrical training (in English).

Elektrotechnisch unterwiesene Person (EuP) in Englisch.

Seminar | Präsenz / Virtual Classroom | 6 Termine verfügbar

8 Unterrichtseinheiten | Teilnahmebescheinigung | Online durchführbar

Seminarnummer: 07342

Stand: 28.11.2026. Alle aktuellen Informationen finden Sie unter https://akademie.tuv.com/s/07342

This English-language course teaches the basic knowledge required for defined electrical work under supervision. Participants learn electrical engineering fundamentals, electrical hazards, protective measures and accident prevention for safe work on or near electrical installations.

Nutzen

- **Build basic electrical knowledge:** Participants learn the essential principles of electrical engineering needed to understand simple electrical tasks and workplace situations.
- **Recognise hazards at an early stage:** The course explains the hazards and effects of electric current so that risks can be identified and assessed more reliably.
- **Apply protective measures in practice:** Participants learn how protective measures against direct and indirect contact help reduce the risk of accidents.
- **Understand the EuP role clearly:** The training explains the tasks, responsibilities and limits of a person with electrical training in everyday work.
- **Support safe task allocation:** Companies can prepare selected employees for defined additional electrical tasks under the guidance and supervision of a qualified electrician.
- **Improve response in emergencies:** Participants receive basic knowledge of first aid for electrical accidents and learn why correct action is critical.

Zielgruppe

This course is aimed at building managers, skilled workers in various trades, customer service engineers and employees from industry, public authorities and insurance companies. It is suitable for staff who are to carry out defined electrical tasks under the guidance and supervision of a qualified electrician in their day-to-day work.

Anforderungen

The employer is responsible for selecting and appointing suitable employees in accordance with the relevant regulations.

Abschluss

Teilnahmebescheinigung

Person with electrical training.

Inhalte

- Introduction – Definition of a person with electrical training
- Fundamentals of electrical engineering
- Hazards and effects of electric current
- Protective measures against direct and indirect contact
- Accident prevention when working on electrical installations
- Fundamentals of ‘First aid for electrical accidents’

Hinweise

Following the seminar, technical and safety training must be provided by a qualified electrician.
