Status: 26.09.2024. All current information can be found at <https://academy-id.tuv.com/s/IDN-F4-PUB>

Elevate your professional capabilities with our extensive training program tailored for auditors focusing on **Information Security Management System (ISMS)** and **Quality Management System (QMS)**. This in-depth program provides you with advanced auditing techniques, comprehensive knowledge of international ISO 9001:2015 and ISO/IEC 27001 standards, and the critical skills needed to identify risks and facilitate continuous improvement across integrated management systems.

Our highly experienced trainers will lead you through detailed sessions covering practical auditing techniques and the best practices needed to assess and evaluate the effectiveness of ISMS and QMS. With their guidance, you will gain a robust understanding of how to manage and improve security and quality processes effectively. Join us to advance your expertise and become a leading auditor in the evolving fields of QMS and ISMS.

## Benefits

- Gain an in-depth comprehension of the ISMS and QMS standards, specifically ISO 27001 and ISO 9001. Delve into the critical elements and nuances of these standards to establish a strong foundation in both information security and quality management.
- Master the skills necessary to efficiently plan, conduct, and report on integrated audits. Learn the methodologies and strategies essential for performing thorough and effective audits that encompass both ISMS and QMS frameworks.
- Develop the expertise to accurately identify and assess risks, vulnerabilities, and opportunities for improvement within the frameworks of ISMS and QMS. Enhance your ability to pinpoint areas that require attention and recommend actionable solutions that drive system enhancements.
- Explore and implement best practices for seamlessly integrating ISMS and QMS into organizational processes. Understand how to align these systems to boost operational efficiency, ensuring that security and quality reinforce one another for optimal performance.

# Target group

- **Quality and information security professionals** seeking to enhance their auditing capabilities. This program helps deepen knowledge of audit processes and improve system evaluations.
- **Internal auditors** responsible for performing detailed audits within their organizations. The training provides essential insights and techniques for effectively assessing and enhancing integrated management systems.
- **Professionals involved in the setup and maintenance of ISMS and QMS frameworks.** Gain the skills needed to align these systems with organizational goals and compliance standards.
- **Individuals interested in careers in auditing or compliance management.** This foundational program offers vital knowledge and practical skills for career advancement in these fields.

# Requirements

No Prerequisites required. Anyone can complete this course.

# Training outline

- Gain comprehensive knowledge of Integrated Information Security Management System (ISMS) and Quality Management System (QMS) auditing.
- Learn practical techniques to assess and evaluate the effectiveness of both systems.
- Understand the integration of ISMS and QMS to achieve optimal organizational performance.
- Enhance your auditing skills and ensure compliance with international standards.

# Other information
