Gain the skills and knowledge to work safely on **Electric and Hybrid Vehicles** with our Level 2 training. Learn about Personal Protection Equipment (PPE), tools, and the associated risks of working with DC High Voltage systems.

This course covers electrical laws, specific components, shutdown procedures, and practical assessments. Perfect for Automotive Vehicle Technicians and Senior Automotive Technicians who have completed Level 1 online.

Benefits

Learn to safely carry out the removal and replacement of high voltage components in electric and hybrid vehicles that have been made safe. This includes the powertrain, cooling systems, heating, ventilation and air conditioning systems.

Target group

This course is ideal for those in Level 2 - job roles, like Automotive Vehicle Technicians and Senior Automotive Technicians.

Requirements

Participants have taken and completed Level 1 online.

Training outline

Level 2 candidates will get a recap of the contents of Level 1, learn about electrical laws, specific components (including battery packs) and how they operate, shutdown procedures and vehicle reinstatement post service or repair. This course also includes a demonstration from the Trainer, a written test and a practical assessment of each delegate.
