

Fundamentals of information security

Fundamentals of information security

 Seminar

 Always available

 Certificate of Completion

 E-learning

 1 Lessons

 Available online

Seminar Number: PH-C03-FundInfoSec-EL

Status: 01.09.2024. All current information can be found at <https://academy-ph.tuv.com/s/PH-C03-FundInfoSec-EL>

This training will familiarize you with the importance of information security at home and in the business environment. You will learn about the threats to information security and how potential attackers approach. It also provides helpful clues on how to effectively support your organization in establishing and maintaining information security.

Benefits

- The product supports the CISO and managers in awareness raising for information security in the private/home office as well as in the business environment
- Provides up-to-date, helpful advice on how to help your organization establish and maintain information security and how individual employees can contribute

Target group

CISO for awareness-raising and basically all persons who would like to inform and sensitise themselves about the importance of information security in the business and private exchange of information as well as in the use of digital communication media and/or who use them for business purposes

Requirements

No prerequisite

Training outline

- Keyword content: What is information security about?
- Information and its handling in everyday life
- Where do risks come from
- Information security as a team task
- Information security in everyday working life
- Classification of information
- Safety regulations and instructions
- The core of all information security systems
- Recommendations for action

Other information

For payment and other inquiries, please send an email to info@phl.tuv.com. This course will be valid for 3 days after first access.
