Status: 27.07.2024. All current information can be found at <https://academy-ph.tuv.com/s/PH-C03-DPPA-CERT-VC>

Embark on a transformative journey with our three-day Certified Data Privacy Protection Auditor (DPPA) Training program. This meticulously crafted course is tailored to equip you with the skills and knowledge required to conduct systematic, efficient, and effective data privacy protection audits. Aligning with the requirements of both local and international data privacy protection laws and regulations, our training leverages the ISO 19011:2018 Guidelines as its backbone. Participants will delve into the nuances of planning, implementing, and auditing a robust data protection management system, ensuring a comprehensive understanding of the audit process from start to finish. Through interactive sessions, case studies, and hands-on exercises, you'll emerge as a proficient auditor capable of navigating the complex landscape of data privacy with confidence.

Benefits

Upon completing our three-day Certified Data Privacy Protection Auditor (DPPA) Training, participants gain essential skills and knowledge in key areas crucial for mastering data privacy protection audits:

- **Foundational Framework:** Establishing efficient data protection management systems.
- **Strategic Implementation:** Launching and integrating data protection concepts seamlessly.
- **Rigorous Documentation:** Comprehensive documentation for compliance and effectiveness.
- **Audit Program Mastery:** Establishing, managing, and executing audit programs.
- **Audit Execution:** Planning, conducting audits, and preparing reports efficiently.

Target group

Our Certified Data Privacy Protection Auditor (DPPA) Training is ideal for individuals aiming to enhance their data privacy audit skills, who meet these prerequisites:

- **Academic Achievement:** Holders of any state-recognized college degree, which is crucial for grasping data privacy concepts.
- **Work Experience:** Individuals with at least 1 year of relevant experience in data privacy, IT security, or related fields.

Designed for professionals looking to specialize in data privacy protection audits, this program caters to IT professionals, auditors, compliance officers, and data protection officers seeking to validate their skills and knowledge in the field.

Requirements

Before enrolling in our Certified Data Privacy Protection Auditor (DPPA) Training, participants should have completed the following foundational courses:

- A comprehensive **5-day Data Protection Officer (DPO) (TÜV) training course**, or an equivalent certification from IAPP, including **CIPP/CIPT + CIPM** certifications, providing a solid foundation in data protection principles, practices, and governance.
- **Data Privacy Act Awareness training**, ensuring participants are well-versed in the legal and regulatory framework of data privacy and understand the critical importance of compliance in today's digital landscape.

These prerequisites are designed to ensure that all participants have a baseline understanding of data protection laws, principles, and the role of a Data Protection Officer, setting the stage for a deeper dive into the specifics of data privacy protection auditing.

Training outline

- **Requirements & Implementation:** Learn to craft a robust data protection system from planning to upkeep, ensuring compliance and risk mitigation.
- **Introduction of Data Protection Concept:** Effectively launch and integrate data protection strategies into your organization.
- **Documentation & Management:** Master the art of documenting and managing data protection protocols for clarity and accountability.
- **Audit Program Establishment:** Define audit goals and methodologies to assess compliance and effectiveness.
- **Audit Management:** Oversee both internal and external audits to maintain data protection standards.

- **Audit Planning & Conduct:** Plan and execute audits efficiently, identifying areas for improvement and compliance.
- **Report Preparation & Distribution:** Summarize audit findings and recommendations for actionable insights.
- **Follow-up & Compliance:** Monitor corrective actions post-audit to ensure sustained compliance and risk management.
