ISO 50001:2018 Energy Management System (EnMS) Awareness

 Seminar

 2 Dates available

 Certificate of Attendance

 Virtual learning

 8 Lessons

 Available online

Seminar Number: PH-C11-ISO50001-EnMS-Aw-VC

Status: 27.07.2024. All current information can be found at <https://academy-ph.tuv.com/s/PH-C11-ISO50001-EnMS-Aw-VC>

This comprehensive course is tailored to guide you through the essentials of designing, establishing, maintaining, and improving an EnMS. By exploring the core requirements, contextual factors, leadership roles, and operational strategies within ISO 50001:2018, participants will gain valuable insights into effective energy use and conservation. Equip yourself with the knowledge to drive energy efficiency, reduce costs, and promote sustainability in your organization.

Benefits

At the end of the training, participants should be able to:

- **Enhanced Energy Efficiency:** Learn strategies to significantly reduce energy consumption and costs.
- **Comprehensive Understanding:** Master the key components of ISO 50001:2018, from planning to performance evaluation.
- **Improved Sustainability:** Contribute to environmental sustainability by minimizing your organization's energy footprint.
- **Operational Excellence:** Apply energy management best practices in design, procurement, and operation to optimize performance.
- **Regulatory Compliance:** Ensure your organization meets global standards and regulatory requirements for energy use.

Target group

Ideal for a range of roles focused on improving energy management:

- **Energy Efficiency and Conservation Officers**
- **Pollution and Safety Officers**
- **Executives, Managers, and Top Management**
- **Internal Auditors and Functional Leaders**

Designed to equip professionals across levels with the skills to enhance energy efficiency, ensure safety, and lead sustainable initiatives within their organizations.

Requirements

For the most effective learning experience, participants should have:

- A basic understanding of energy management system operations.
- Familiarity with energy management systems is beneficial but not mandatory.
- An eagerness to improve and adapt to global standards in energy management.

No specific educational background is needed, making this course accessible to anyone interested in advancing energy management within their organization.

Training outline

- Introduction to ISO 50001:2018
- Definition of Terms
- Requirements for design, establishment, maintenance, and improvement of Environmental Management System
- Context of the Organization
- Leadership
- Planning
 - Energy Review
 - Energy Performance Indicators
 - Energy Baseline
- Support
- Operation
 - Design and Procurement
- Performance Evaluation
 - Internal Audit
 - Management Review
- Improvement
