The general rule of occupational health and safety management systems states that organizations shall establish, document, implement, maintain, and continually improve the OH&S management system. Thus, it is imperative to know the documents, the kinds of documents, the process of documentation and how to manage and control these documents in implementing, maintaining and continually improving your organization's OH&S management system.

Benefits

At the end of the course, learners should know:

- The OH&S management system requirements for documented information
- How to manage and control the different kinds of documents

Target group

This course is recommended for Occupational, Health and Safety Management key personnels such as:

- Management Representative
- Document Control Personnel;
- ISO certification or Occupational, Health and Safety Management Sysytem project team members
- Internal Auditors

Requirements

No prerequisite

Training outline

1. Introduction
2. The documented information requirements of OH&S MS:
