Stand: 25.11.2025. Alle aktuellen Informationen finden Sie unter <https://akademie.tuv.com/s/29258>

This course provides students with the fundamental knowledge and skills to configure and manage Internet Information Services.

Nutzen

This course is intended to help provide pre-requisite skills supporting a broad range of Internet web applications, security, and knowledge to help support other products that use IIS such as Exchange and SharePoint. In keeping with that goal, this course will not focus on any particular web application or development practice.

Zielgruppe

This course is intended for IT Professionals already experienced in general Windows Server and Windows Client administration. No prior experience with any version of Internet Information Services is assumed.

Voraussetzungen

In addition to their professional experience, students who attend this training should already have the following technical knowledge:

- Experience with Windows networking technologies and implementation.
- Experience with Windows Server administration, maintenance, and troubleshooting.
- Experience with Windows Client administration, maintenance, and troubleshooting.

Inhalte des Seminars

- Overview and Installing Internet Information Services
- Configuring The Default Website
- Configuring and Managing Application Pools
