According to DGUV Regulation 1 and other standards and regulations, the annual instruction of persons working in electrical engineering is a company obligation. In this e-learning course, you will learn the content of the current regulations on occupational health and safety for electrically instructed persons (EuP) and electricians for specified tasks (EffT). This product is also available in German: [Elektrotechnisch unterwiesene Person \(EuP\)](https://www.tuv.com). ([tuv.com](https://www.tuv.com))

Nutzen

- Participants are familiarized with the content of the current regulations and receive practical advice on how to implement them in everyday operations.
- They will be able to better recognise and assess the hazards involved in electrotechnical activities.
- They will know which protective measures are suitable and effective for preventing accidents and will be able to implement them safely.
- Our e-learning saves you the cost of travel, catering and accommodation and you can flexibly adapt the training to your own schedule. You determine your own learning pace and test your knowledge using the exercises
