The General Data Protection Regulation (GDPR) imposes significant requirements on companies that process personal data within the European Union. For all companies operating in the EU, knowledge of the data protection regulations is therefore of outstanding importance. This course will provide you with an insight into this important future-oriented field of activity.

Les objectifs

- You will learn the basics of data protection in the EU.
- You will learn about techniques and tools that let you reliably manage data protection risks.
- You will protect your company against fines and competition law warnings.
- You will discuss issues that hinder you from implementing data protection in your company.

Le public ciblé

This course addresses English speakers inside and outside the European Union who want to get an overview of the legal and practical situation regarding data protection in the EU: e.g. business managers, data protection officers, privacy consultants, privacy champions, privacy lawyers, programmers.

Les prérequis

Basic knowledge of the data protection regulations
