Take the first step towards a successful career in occupational health and safety with the NEBOSH International Certificate. This globally recognized qualification is designed to provide you with a comprehensive understanding of health and safety principles and practices. With this certification, you'll be able to identify and manage workplace hazards, reduce risks, and improve overall safety performance.

Benefits

The NEBOSH Oil and Gas Certificate equips you with the skills required to execute occupational health and safety protocols for the oil and gas sector.

- Gain a globally recognized qualification in occupational health and safety
- Develop a comprehensive understanding of health and safety principles and practices
- Enhance your career prospects and job opportunities
- Improve your ability to identify and manage workplace hazards
- Reduce risks and improve overall safety performance

Target group

The NEBOSH Oil and Gas International General Certificate is aimed at anyone responsible for health and safety in the oil and gas industry, including:

- Health and safety professionals
- Managers and supervisors
- Employees with health and safety responsibilities

- Anyone looking to start a career in occupational health and safety

Requirements

There are no formal prerequisites for enrolling in this course. However, a basic understanding of health and safety principles and proficiency in English are recommended to fully benefit from the course material.

Training outline

The NEBOSH Oil and Gas Certificate has one unit with five elements:

Unit IOG1: Management of Health and Safety

- Element 1: Health, safety and environmental management in context
- Element 2: Hydrocarbon process safety I
- Element 3: Hydrocarbon process safety II
- Element 4: Fire protection and emergency response
- Element 5: Logistics and transport operations

The course is assessed with a two-hour written exam. The exam is split into two sections with 10 short-answer questions and one long-answer question.
