Seminar Number: PH-C11-IRCAISO14001-ALA-VC

Status: 11.02.2025. All current information can be found at <https://academy-ph.tuv.com/s/PH-C11-IRCAISO14001-ALA-VC>

In today's increasingly environmentally conscious world, organizations are recognizing the importance of minimizing their impact on the planet. The IRCA Certified ISO 14001:2015 **Environmental Management Systems** (EMS) emerges as a powerful tool, empowering businesses to **systematically manage their environmental responsibilities**.

Developed by the International Register of Certificated Auditors (IRCA), a globally acclaimed leader in environmental management training and certification, this framework provides a **structured approach to environmental performance improvement**. By adhering to its guidelines, organizations can:

- **Identify and assess** their environmental aspects and impacts across all operations.
- **Establish clear environmental objectives and targets**, setting a roadmap for sustainable progress.
- **Develop and implement effective environmental management practices**, covering areas like waste reduction, energy efficiency, and pollution control.
- **Continually monitor and measure** their environmental performance, ensuring ongoing improvement.
- **Achieve compliance** with relevant environmental regulations and standards.

The IRCA certification adds an extra layer of credibility and assurance, demonstrating an organization's commitment to environmental best practices. IRCA-certified EMS auditors possess the expertise to rigorously assess an organization's EMS against the stringent requirements of ISO 14001:2015, providing valuable insights and recommendations for further optimization.

Implementing an IRCA Certified ISO 14001:2015 EMS isn't just about ticking boxes; it's about **embracing a culture of environmental responsibility**. It's about **taking concrete steps to protect our planet**, while simultaneously reaping the benefits of **enhanced efficiency, cost savings, and a positive brand image**. By embarking on this journey, organizations pave the way for a more sustainable future, not just for themselves, but for generations to come.

Benefits

For Individuals

- Gain in-depth understanding of basic auditing principles, ISO 14001:2015 standards, and guidelines for audits in line with ISO 19011:2018 and ISO 17021.
- Learn the nuances of planning, preparing, and implementing environmental audits.
- Develop effective communication and questioning techniques critical for auditors, including audit opening, framing audit questions, active listening, and addressing communication challenges.
- Understand the interfaces between environmental, occupational health and safety, energy, and quality management systems in auditing.
- Obtain a certification that is internationally recognized and IRCA accredited, significantly enhancing your professional profile and global employability.

For Organizations

- Equip your team with the knowledge to understand and classify environmental law at various levels - EU, federal, state, and municipal law, along with general clauses.
- Benefit from employees skilled in monitoring activities and follow-ups post-audit.
- Leverage the knowledge of your workforce in understanding the interrelation of environmental management with other systems like occupational health, safety, energy, and quality management.
- Utilize the enhanced skills of your team in comprehensive audit planning and execution, contributing to the overall environmental strategy and compliance of your organization.

Target group

This IRCA Certified ISO 14001:2015 EMS Lead Auditor Training Course is specifically tailored for a diverse group of professionals who are committed to advancing their expertise in environmental management and auditing. It is an ideal fit for:

- Individuals holding a degree as an environmental manager (TÜV), demonstrating a foundational understanding of environmental management principles.
- Those who have completed an EMS ISO 14001 Foundation Course or hold a comparable degree from an educational institution recognized by CQI IRCA.
- Existing auditors seeking to specialize in environmental management systems or consultants providing expertise in this area.
- Managers and executives responsible for overseeing environmental and sustainability practices within their organizations.
- Individuals involved in developing and enforcing environmental policies and regulations.

Requirements

To enroll in the course, candidates are required to demonstrate their understanding of key Environmental Management Systems principles and concepts. This prerequisite knowledge is verified through the submission of specific documents:

1. **Curriculum Vitae:** A comprehensive CV must be submitted, detailing relevant experience and educational background in Quality Management Systems. The form for the CV will be provided to you upon course registration.
2. **Pre-Assessment Questionnaire:** Candidates are expected to complete a course pre-assessment questionnaire. This short quiz, aimed at gauging your foundational knowledge, will be made available upon registration and should be submitted at least one week prior to the course start date.

Recommended prior knowledge:

- Qualifications such as Environmental expert / manager (TÜV), Internal Auditor ISO 14001 (TÜV), EMS ISO 14001 Foundation, e.g. FD113 ISO 14001:2015 Foundation (EMS, or a comparable certification from a CQI IRCA-approved provider.
- Strong command of the English language.

Training outline

DAY 1

- Course assemble, registration of delegates
- Introduction to the course, the aims and objectives, rules and continuous assessment; study of the delegate profile s obtained before the course
- **Module A - Essential Knowledge**
 - Refresher & Exercise ISO 14001, Exercises ISO 14001
