BOSH SO2 Training: 40-Hour DOLE-Accredited Course for Safety Officer 2

BOSH SO2 Training: 40-Hour DOLE-Accredited Course for Safety Officer 2

Course | 2 Dates available | Certificate of Completion

Virtual learning | 40 Lessons | Available online

Seminar Number: PH-C01-BOSH-VC

Status: 07.10.2026. All current information can be found at https://academy-ph.tuv.com/s/PH-C01-BOSH-VC

Step into the future of workplace safety with our 40-hour BOSH training, the recognized gold standard in the industry. As part of our **Occupational Health and Safety Training** programs, this course is tailored for forward-thinking professionals and goes beyond mere compliance, offering a proactive approach to safety expertise. By partnering with us, you're not just meeting industry benchmarks; you're setting them, ensuring a protected, motivated, and thriving workforce. Embrace excellence and redefine your safety standards today.

Key Highlights of the BOSH Training:

- **Real-world Applications:** Our BOSH training focuses on practical scenarios, ensuring that participants can apply their knowledge effectively in their respective workplaces.
- **Understanding Occupational Hazards:** Delve deep into the repercussions of occupational illnesses and accidents, and design suitable treatment or control strategies for recognized hazards.
- **Promoting OSH Awareness:** Recognize the importance of robust Occupational Safety and Health (OSH) initiatives, facilitated through interactive training sessions and discussions.
- **Role of Safety Officers:** Understand the pivotal roles of safety officers in guiding the OSH program, aligning it with the strategic vision of top management.
- **Crafting an OSH Program:** Identify the core elements of an OSH program and formulate a tailored OSH reintegration plan suitable for your workplace.

Benefits

After completing the course, participants will be equipped to:

® TÜV, TUEV and TUV are registered trademarks. Utilisation and application requires prior approval.

- Detect current safety and health threats, foresee potential risks, and grasp their impact on the human physique.
- Evaluate the consequences of work-related illnesses and mishaps on their work environment, local communities, on a personal level, and among their peers.
- Develop effective measures or interventions for identified hazards.
- Appreciate the importance of solid OSH educational campaigns, delivered via interactive sessions and dialogues.
- Comprehend the crucial responsibilities of safety officers in guiding the OSH agenda in sync with the leadership's strategic direction.
- Highlight the fundamental components of an OSH framework.
- Craft a customized OSH integration strategy for their professional setting.

Target group

This course is ideal for:

- **Business Leaders & Managers:** Grasp the significance of workplace safety and guarantee adherence to rules.
- **HR Experts:** Arm yourself with insights to foster a more secure work setting and minimize potential risks.
- **Safety Representatives & Engineers:** Refine your expertise and keep abreast of contemporary occupational safety and health trends.
- **Construction Site Leaders:** Prioritize your crew's safety by adopting top-tier practices from this course.
- **All Professionals:** Perfect for those passionate about championing and understanding safety in their work environments.

Requirements

While this course is open to all and doesn't have any specific prerequisites, it's designed to be accessible and beneficial for everyone, regardless of their background or experience.

Training outline
