As a manager, you should be familiar with the specific hazards of hydrogen and the necessary safety precautions to minimize potential risks to your employees and the company. This includes the task of providing appropriate training to all affected employees so that they recognize and avoid potential hazards. It is also important that appropriate emergency plans are in place in your company to respond to emergencies.

Benefits

At the end of the e-learning session, the participants should be able to learn the following areas:

- Properties and applications of hydrogen
- Challenges for occupational safety
- Hazard evaluation and countermeasures
- Instruction of employees

Target group

This training unit is aimed at managers in whose area of responsibility the introduction of hydrogen technology is planned.
