 Available online

Seminar Number: PH-C01-GDS_ioni_v01_u01_en

Status: 11.02.2025. All current information can be found at https://academy-ph.tuv.com/s/PH-C01-GDS_ioni_v01_u01_en

Ionizing radiation can have devastating effects on humans and the environment. However, its special properties make it interesting for a wide range of applications in medicine and technology. In Germany alone, some 400,000 people work with radioactive materials or in areas with increased radiation exposure.

This training will inform you how to perform occupational activities in connection with ionizing radiation safely and without negative effects on your health.

Benefits

At the end of the e-learning session, the participants should be able to learn the following areas:

- Basics of ionizing radiation
- Protective measures
- Operational radiation protection

Target group

Employees in all occupational groups who receive regular instruction on health and safety in the workplace

Requirements

None

Training outline

Basics of ionizing radiation
Protective measures
Operational radiation protection

Other information

For more information and inquiries, please contact academy@phl.tuv.com. This course will be valid for 3 days after first access.
