Management system basics: Basic principles of ISO management systems

Management system basics: Basic principles of ISO management systems

Seminar | Always available | Certificate of Attendance

E-learning | 1 Lessons | Available online

Seminar Number: PH-C05-GDS_msys_v01_u01_en

Status: 07.10.2026. All current information can be found at https://academy-ph.tuv.com/s/PH-C05-GDS_msys_v01_u01_en

Standards provide an appropriate level of uniformity for products, processes and services, facilitating their application and smooth interaction at national and international levels. In this training unit you will learn how standards are created, who is responsible for their development, and which standards are relevant to the operation of management systems in a business context.

Benefits

At the end of the e-learning session, the participants should be able to learn the following areas:

- What are standards?
- National and international standardization institutions
- Development and revision of standards
- Naming conventions for standards
- Management system standards
- Certification of management systems

Target group

All groups of people who wish to obtain basic information on the standardization of management systems

® TÜV, TUEV and TUV are registered trademarks. Utilisation and application requires prior approval.

Requirements

None

Training outline
