ISO standards provide globally recognized requirements for the implementation and operation of management systems. To apply them to your organization, you must carefully read the standard document, analyze its contents, and correctly interpret the wording used. This training unit will provide you with the necessary knowledge and examples to support your implementation.

## Benefits

At the end of the e-learning session, the participants should be able to learn the following areas:

- Interpretation of ISO requirements
- Interpret the binding nature of requirements
- Analysis of a requirement
- Example: Analysis of a standard clause
