Stand: 03.05.2024. Alle aktuellen Informationen finden Sie unter <https://akademie.tuv.com/s/27503>

The Oracle Database 12c R2: Administration Workshop Ed 3 course is designed to provide you with a firm foundation in administration of an Oracle Database.

Nutzen

In this course you will gain a conceptual understanding of Oracle Database architecture and learn how to manage an Oracle Database in an effective and efficient manner. This course covers both Database as a Cloud Service and the on-premises Oracle Database.

Learn To:

- Manage an Oracle Database instance.
- Configure the Oracle Network environment.
- Create and manage storage structures.
- Manage and move data.
- Create and manage users.
- Monitor the database and manage performance.
- Create and manage Database as a Cloud Service database deployments.

Zielgruppe

- Datenbankadministratoren
- Datenbankdesigner

- Data Warehouse-Administrator

Voraussetzungen

Basic knowledge of Linux operating System. A working knowledge of SQL and PL/SQL packages is very helpful in the course.

Inhalte des Seminars

- Exploring Oracle Database Architecture
- Managing Database Instances
- Creating PDBs
- Configuring the Oracle Network Environment
- Administering User Security
- Creating and Managing Tablespaces
- Managing Storage Space
- Managing UNDO Data
- Moving Data
- Backup and Recovery Concepts
- Monitoring and Tuning Database Performance
- SQL Tuning
- Oracle Database Resource Manager
- Enterprise Manager Cloud Control
- Introduction to Oracle Database Cloud Service
- Creating DBCS Database Deployments
- Managing DBCS Database Deployments
- Backing Up and Restoring DBCS Database Deployments
- Patching DBCS Database Deployments
- Creating Master Encryption Keys for PDBs
- Tablespace Encryption by Default
