Seminarnummer: 26736 | Herstellernummer: VM-NSXDDV6.2

Stand: 05.06.2023. Alle aktuellen Informationen finden Sie unter <https://akademie.tuv.com/s/26736>

This 5-day course prepares you to lead VMware NSX design and deployment projects by providing an understanding of general design processes and frameworks.

Nutzen

You look at the design and deployment considerations for network virtualization as part of an overall software-defined data center design.

Product Alignment • VMware NSX 6.2 • vSphere 6

Zielgruppe

Network professionals who have experience working with VMware NSX and are responsible for designing or deploying virtualized network architecture.

Voraussetzungen

This course requires understanding the concepts and topics presented in the following courses:

- VMware NSX: Install, Configure, Manage or
- VMware NSX: Troubleshooting and Operations

If you have not taken these courses, you should have equivalent experience.

Passing of the VCP6-NV and VCIX6-NV certification is recommended.

Inhalte des Seminars

- Course Introduction

- Design Process and Principles
- Architecture and Components
- Switching and Routing
- Edge Services
- Security
- Cross-vCenter and Multisite
- Operations and Automation
- Enterprise Design Lab

Wichtige Hinweise

This course prepares you for the following certification: • VMware Certified Design Expert – Network Virtualization (VCDX-NV)
