Stand: 25.04.2024. Alle aktuellen Informationen finden Sie unter <https://akademie.tuv.com/s/29482>

This is a MOC On Demand online Training course that describes mobile device management (MDM) technologies and the integration of various online cloud services with Microsoft System Center Configuration Manager. This online course focuses on both hybrid MDM using Microsoft Intune, and the on-premises MDM scenario.

Nutzen

After completing this course, students will be able to:

- Describe the challenges in managing a mobile and Internet-based workforce and how Configuration Manager integrated with MDM and cloud services solutions can address these challenges.
- Describe and configure methods used to manage client devices that are located outside of the corporate network and connected to the Internet.
- Deploy and manage Microsoft Store for Business apps by using Configuration Manager.
- Deploy and manage Office 365 apps by using Configuration Manager.
- Manage mobile devices by using Configuration Manager.
- Describe and configure a hybrid MDM scenario by using Configuration Manager and Intune.
- Enroll iOS, Android, and Windows-based devices in a hybrid Configuration Manager and Intune MDM solution.
- Describe and configure on-premises mobile device management using Configuration Manager.

Zielgruppe

This course is intended for experienced information technology (IT) professionals, typically described as Enterprise Desktop Administrators (EDAs). These EDAs deploy, manage, and maintain PCs, devices, and applications across medium, large, and enterprise organizations. A significant portion of this audience

uses or intends to use the latest branch of Configuration Manager and Intune together to manage and deploy PCs, devices, and applications.

The secondary audience for this course are individuals who are interested in taking Exam 70-703: Administering System Center Configuration Manager and Cloud Services Integration.

Voraussetzungen

Before attending this course, students must have system administrator–level working knowledge of:

- Networking fundamentals, including common networking protocols, topologies, hardware, media, routing, switching, and addressing.
- Active Directory Domain Services (AD DS) principles and fundamentals of AD DS management.
- Installation, configuration, and troubleshooting for Windows-based personal computers.
- Basic concepts of PKI security.
- Basic understanding of scripting and Windows PowerShell syntax.
- Basic understanding of Windows Server roles and services.
- Basic understanding of the configuration options for iOS, Android, and Windows Mobile device platforms.

Inhalte des Seminars

Module 1: Extending the Configuration Manager infrastructure to support Internet-based and mobile devices

This module describes the challenges in managing a mobile and Internet-based workforce and how Configuration Manager integrated with MDM and cloud services solutions can address these challenges.

Lessons

- Managing a mobile and distributed workforce
- Integrating Configuration Manager with cloud services and Internet-based management solutions
- PKI requirements to support the Internet and MDM
- Expanding content availability by using cloud-based distribution points

Module 2: Managing clients on the Internet

This module explains how to manage client devices that are located outside of the corporate network and connected to the Internet.

Lessons

- Methods for managing Internet-based clients
- Planning and implementing Internet-based client management

- Planning and implementing Cloud Management Gateway

Module 3: Managing Microsoft Store for Business apps by using Configuration Manager

This module explains how to deploy and manage Microsoft Store for Business apps by using Configuration Manager.

Lessons

- Overview of Microsoft Store for Business
- Managing Microsoft Store for Business apps by using Configuration Manager

Module 4: Managing Office 365 apps by using Configuration Manager

This module explains how to deploy and manage Office 365 apps by using Configuration Manager.

Lessons

- Overview of Office 365 ProPlus
- Deploying Office 365 client applications by using Configuration Manager
- Managing and updating an Office 365 client deploymentProPlus

Module 5: Mobile device management by using Configuration Manager

This module describes the methods and technologies used to manage mobile devices by using Configuration Manager.

Lessons

- Overview of mobile device management
- Configuring the Exchange Server connector for mobile device management

Module 6: Hybrid MDM with Configuration Manager and Intune

This module describes how to integrate Configuration Manager with Intune and provide the foundation for device enrollment and management capabilities.

Lessons

- Planning and preparing for hybrid MDM
- Configuring hybrid MDM with Configuration Manager and Intune

Module 7: Device platform enrollment by using Configuration Manager MDM

This module explains how to enroll iOS, Android, and Windows-based devices in a hybrid Configuration

Manager and Intune MDM solution.

Lessons

- Enrolling Windows devices into MDM
- Enrolling Android devices into MDM
- Enrolling iOS devices into MDM
- Managing mobile devices in Configuration Manager

Module 8: On-premises mobile device management using Configuration Manager

This module explains On-premises MDM, its requirements, and the types of devices it can manage how to configure on-premises mobile device management by using Configuration Manager. It also explains how to implement On-premises MDM in an existing Configuration Manager environment and the different ways to enroll Windows 10 devices.

Lessons

- Overview of On-premises mobile device management
- Configuring On-premises MDM by using Configuration Manager

Wichtige Hinweise

Dieses ist ein MOC on Demand online Training zu dem Sie zusätzlich die Original Seminarunterlage MOC20703-2 in digitaler Form bekommen. Ihnen wird online eine Übungsumgebung für praktische Labs über die Lernplattform bereit gestellt.

Terminübersicht und Buchung

Buchen Sie Ihren Wunschtermin jetzt direkt online unter <https://akademie.tuv.com/s/29482> und profitieren Sie von diesen Vorteilen:

- Schneller Buchungsvorgang
- Persönliches Kundenkonto
- Gleichzeitige Buchung für mehrere Teilnehmer:innen

Alternativ können Sie das Bestellformular verwenden, um via Fax oder E-Mail zu bestellen.
